PROFESSIONAL EXPERIENCE

KW Capital Advisors | Ameriprise Financial **Summer 2026**
Private Wealth Intern *Boulder, CO*

- Consolidated 15 client documents into an account inventory, tax comparison, dashboard and follow-up tracker.
- Prepared equity research with bull/bear cases and mutual-fund presentations for advisor-client discussions.
- Supported 401(k) rollovers with forms, written instructions and follow-up calls; updated MoneyGuide records.
- Built PlanShift with public WARN/Form 5500 data, SQLite and Excel for human-reviewed retirement prospect workflows.

Exalted | Independent Creator **2013 - 2022**
Founder and YouTube Creator

- Built a YouTube business to 243,000 subscribers and 30.4M views across 205 independently produced videos.
- Used retention analysis, title/thumbnail testing and search optimization; produced six videos with over 1M views.

Professional Fortnite **2019 - 2021**
Competitor | Recorded tournament history *United States / International*

- Earned 53rd-, 68th- and 83rd-place team finishes; refined tournament strategy through disciplined practice and teamwork.
- Placed 68th among at least 10,000 duo teams in Luxe Cup NA West qualifying, finishing in the top 0.68% or better.

SELECTED PROJECTS

- **Synthetic Deal Valuation:** Modeled warrants and contractual tradeoffs in Python and Excel with 50,000 Monte Carlo paths, sensitivities and Shapley attribution.
- **Trade Lifecycle Reconciliation:** Normalized FIX/CSV/JSON feeds in Python/DuckDB; reconciled trades, positions, settlement and cash on synthetic data.
- **NFL Adaptive Forecasting:** Cut historical player MAE 3.8% versus reconstructed baseline on 17,110 held-out player-weeks (2023-2025); tested 43 feature subsets.
- **Macro Data Lab:** Built SQL historical economic snapshots, vintage comparisons, data-quality diagnostics and exportable reports to analyze revisions.
- **Fantasy Manager Data Pipeline:** Integrated ESPN league data, injury-aware lineup selection, pregame forecast archiving and automatic outcome grading in a local application.
- **Fixed-Income Risk Engine:** Built Treasury curve bootstrapping, duration/convexity, DV01, CS01 and stress analysis for a simulated bond portfolio.
- **Cross-Asset PCA Risk:** Implemented rolling principal component analysis across Treasury, equity and credit data, with factor attribution on simulated portfolios.

EXTRACURRICULAR

Endurance Athletics | Ironman 140.6 Training - Structured swim/bike/run workload, pacing, fueling and recovery around measurable performance.
Colorado State University | Student Fee Review Board - Reviewed budget requests against a fixed fee pool; challenged assumptions and defended allocations.
GLO-BUS Strategy Simulation | Empire AeroTech - Led team to 1st in class and Top 100 North America; placed 3rd in the final round.

TECHNICAL SKILLS

Excel, PowerPoint, Python, SQL, Git, MoneyGuide, Salesforce | Data analysis, client communication, research, workflow automation
